OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Migration	Anadromous
Chum Salmon	July 24, 1993			X	
Pink Salmon	" "			X	

IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as any other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments: Data gathered during Girdwood Fish Surveys. Adult Fish
observed in stream. Chum Salmon caught on Hook and line and
released after positive identification.

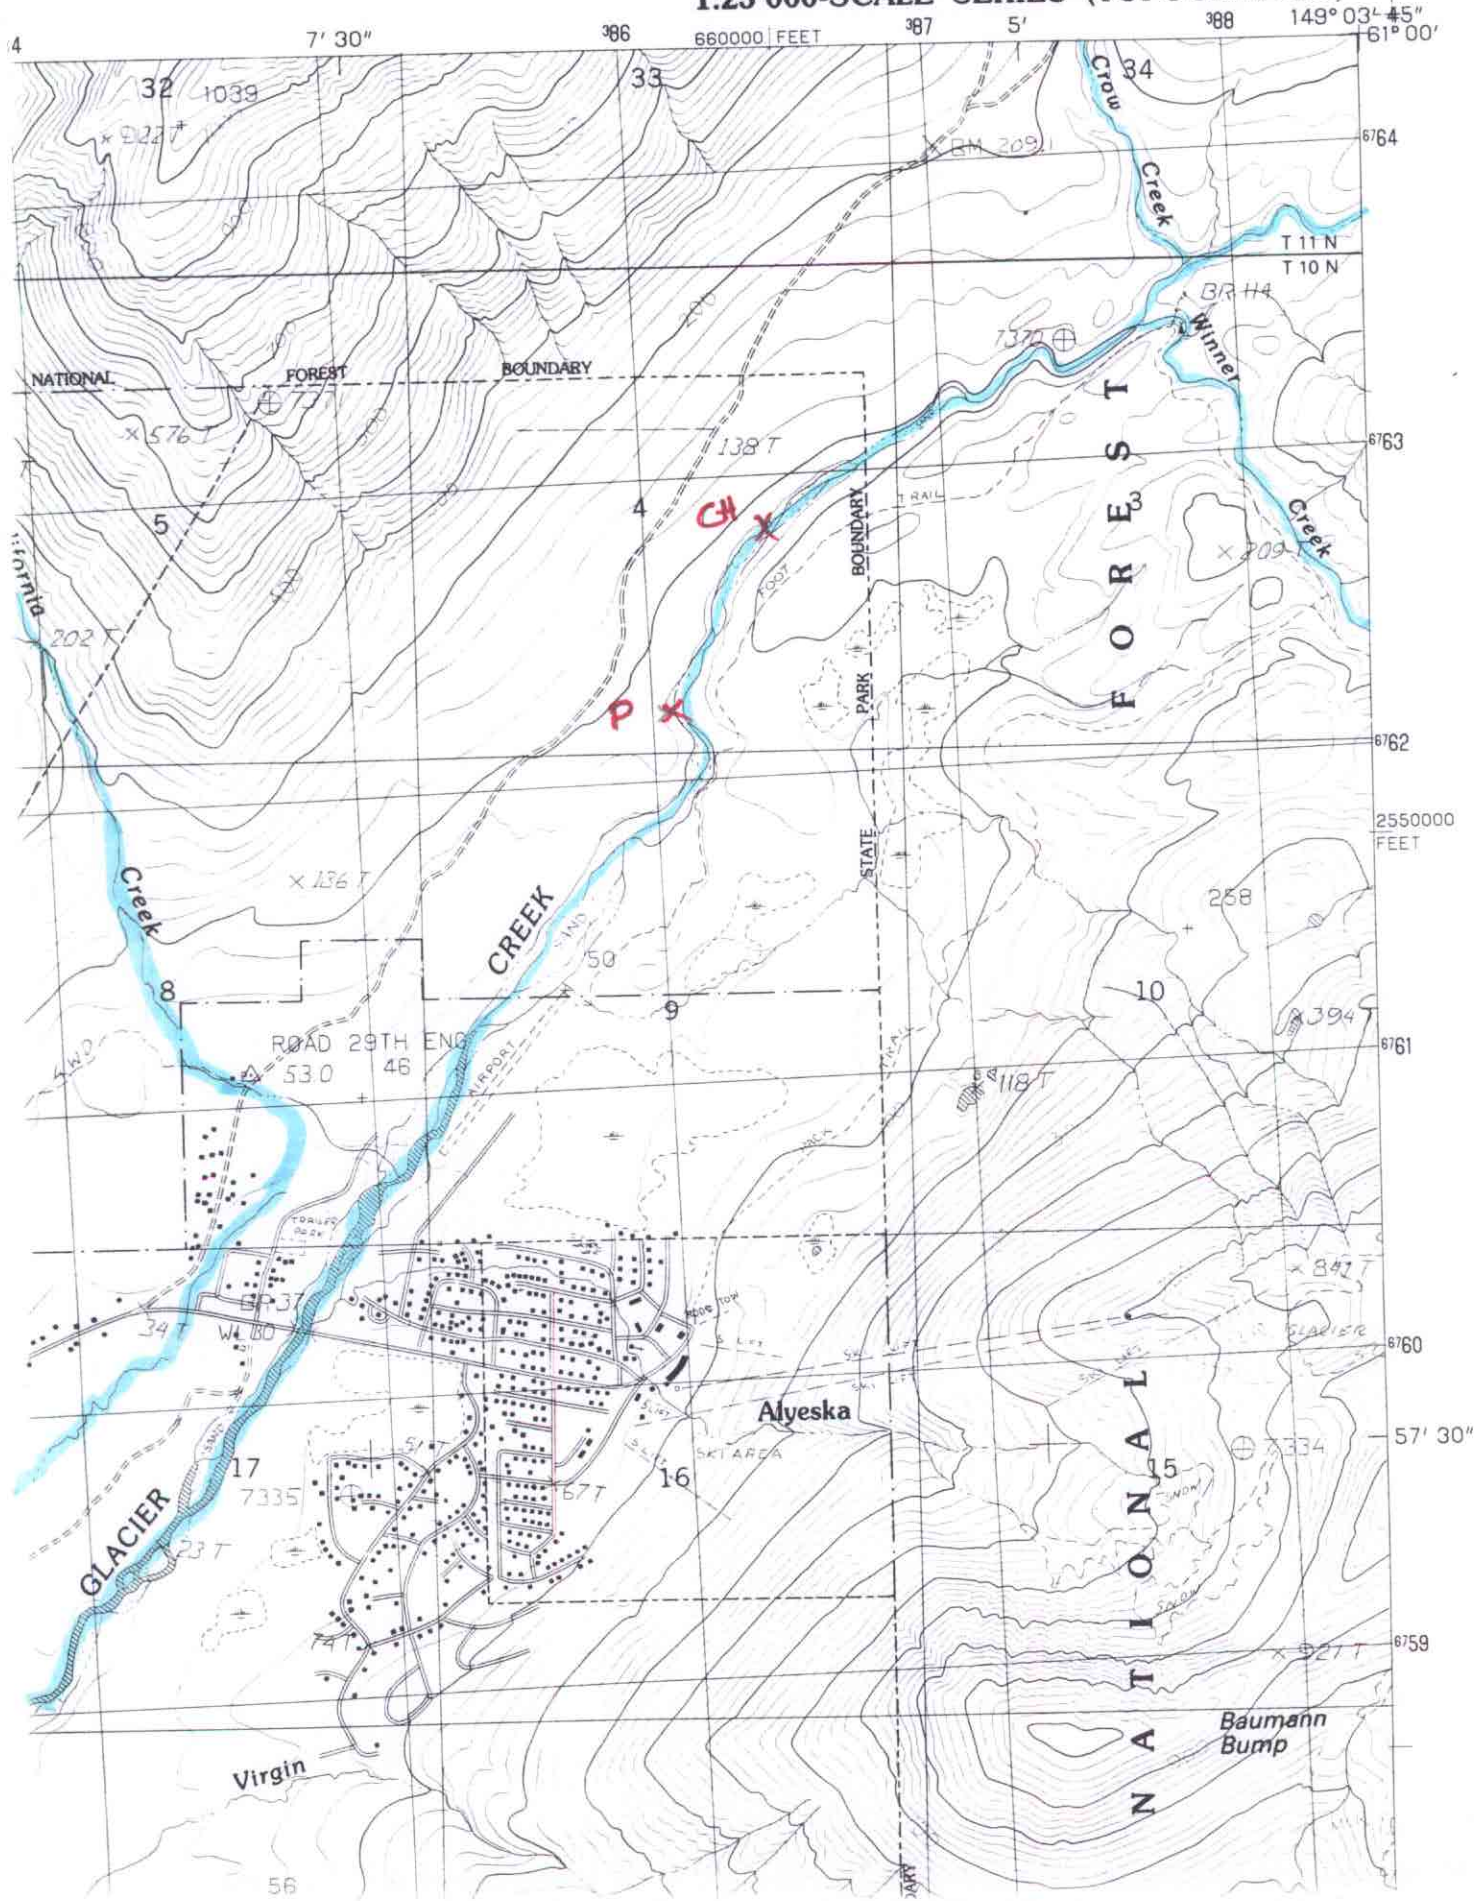

Name of Observer (please print) REID BAHNSON
Date: 11/2/93 Signature: Reid Bahnsen
Address: P.O. Box 415
GIRDWOOD, AK 99587

This certifies that in my best professional judgement and belief the above information is evidence that this waterbody should be included in or deleted from the Catalog of Waters Important for Spawning, Rearing or Migration of Anadromous Fishes per AS 16.05.870.

Signature of Area Biologist: Andrew G. Hoffman
